

TitleTableViewController

```
classDiagram
    class TitleTableViewController
    class AttendanceViewController
    class DailyViewController
    TitleTableViewController <|-- AttendanceViewController
    TitleTableViewController <|-- DailyViewController
```

The diagram illustrates a class hierarchy. At the top is the 'TitleTableViewController' class. Below it are two subclasses: 'AttendanceViewController' on the left and 'DailyViewController' on the right. A horizontal line connects the two subclasses, with a vertical line extending upwards from its center to an arrowhead pointing at the 'TitleTableViewController' class, indicating that both subclasses inherit from the superclass.

AttendanceViewController

DailyViewController
